

Thomas A. Boyd, Psy.D.

I am the Director of Green Road Behavioral Health (GRBH), which is now part of the comprehensive multidisciplinary healthcare system at University Suburban Health Center in South Euclid, Ohio.

I am a Clinical Psychologist with 40 years of experience in providing mental health treatment, evaluations, and forensic services. I pursued an academic track early in my career with faculty appointments in the medical schools of Hahnemann, Brown, and Case Western Reserve Universities. I have been published in professional psychology and medical journals, and presented both nationally and internationally. I have now pursued private practice for 25 years primarily as an outpatient psychologist and individual psychotherapist, but always with an involvement in forensic services. I work with adults ages 18 and older, including seniors. I have engaged effectively with diverse populations experiencing a wide array of difficulties.
